

上傳新的檔案至 GitHub 的方法

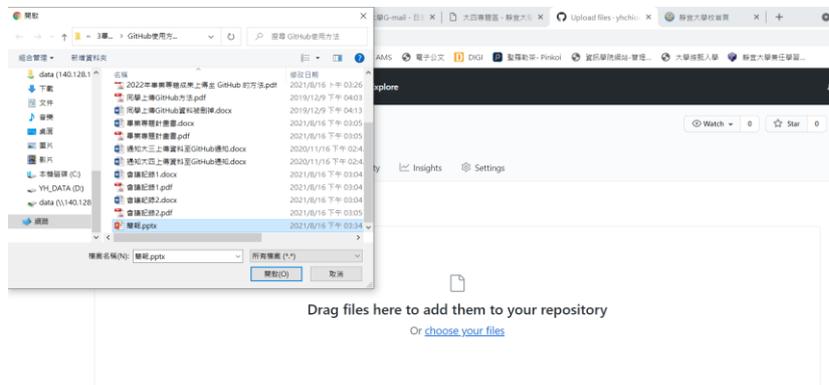

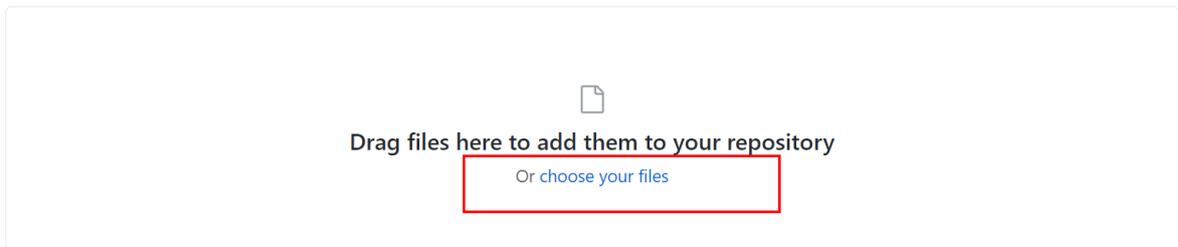

1. 進入專題名稱的目錄，選擇 Update files

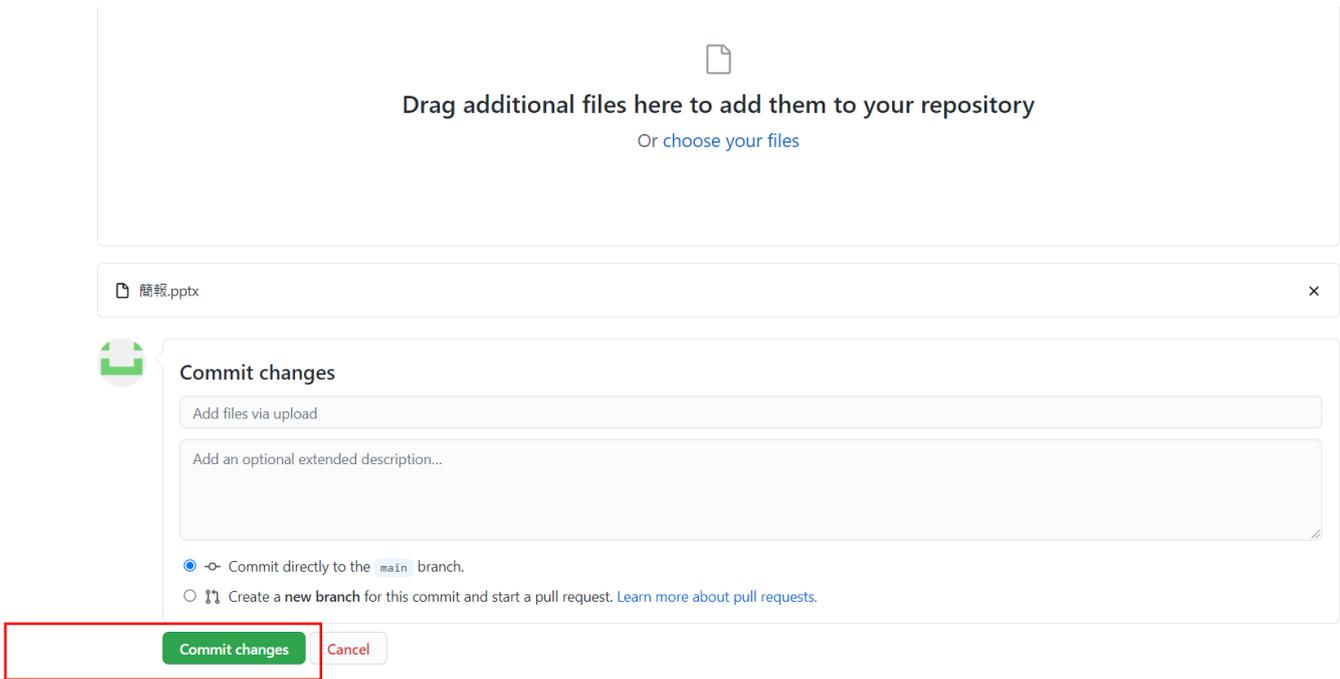

選擇檔案

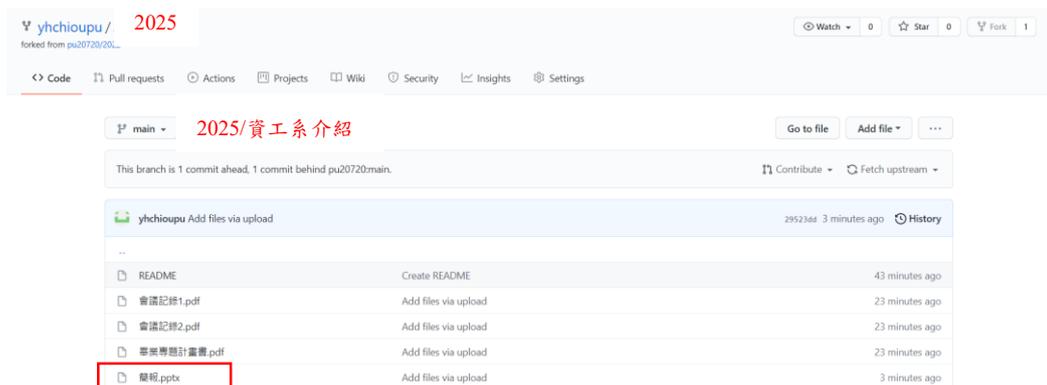

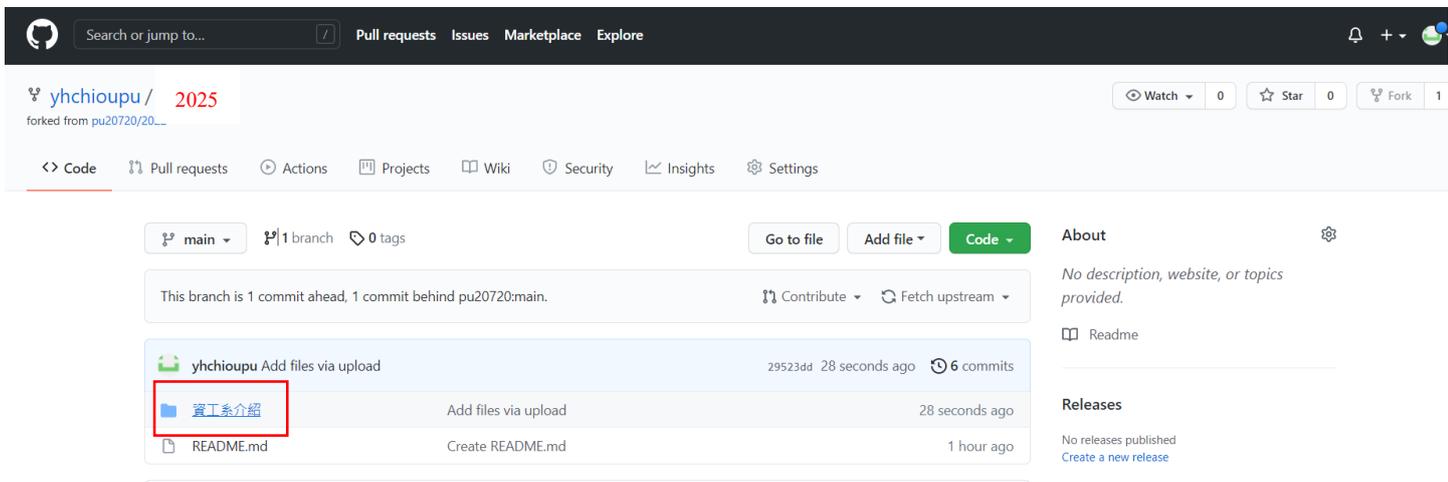

2025/資工系介紹

按下 Commit changes

2. 確認檔案是否有上傳成功：

3. 發出 Pull Request (PR) ，按 New pull request 按鈕

按下 Contribute ，選 Open pull request

The screenshot shows the GitHub interface for a repository named 'yhchioupu/2025'. At the top, there are navigation links for Code, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. Below the repository name, there are buttons for Watch (0), Star (0), and Fork (1). The main content area shows the 'main' branch with a commit history. A red arrow points to the 'Contribute' button. A tooltip is displayed over the 'Contribute' button, showing the text 'This branch is 1 commit ahead of pu20720:main. Open a pull request to contribute your changes upstream.' and a green 'Open pull request' button, which is highlighted with a red box.

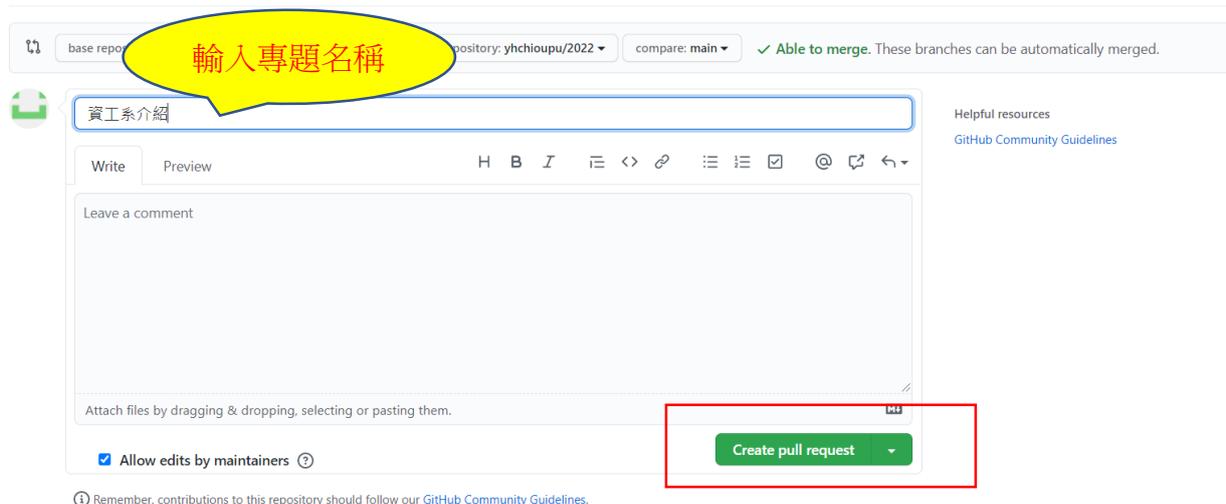

選 Create pull request

The screenshot shows the 'Comparing changes' page in GitHub. The page title is 'Comparing changes' and the subtitle is 'Choose two branches to see what's changed or to start a new pull request. If you need to, you can also [compare across forks](#).' Below the title, there are dropdown menus for 'base repository: pu20720/2022', 'base: main', 'head repository: yhchioupu/2022', and 'compare: main'. A green checkmark indicates 'Able to merge. These branches can be automatically merged.' Below this, there is a blue bar with the text 'Discuss and review the changes in this comparison with others. [Learn about pull requests](#)' and a green 'Create pull request' button, which is highlighted with a red box. Below the bar, there are statistics: '1 commit', '1 file changed', '0 comments', and '1 contributor'. At the bottom, there is a commit history section for 'Commits on Aug 16, 2021' with a commit titled 'Add files via upload' by user '29523dd' (Verified). The page also shows 'Showing 1 changed file with 0 additions and 0 deletions.' and buttons for 'Unified' and 'Split' views.

4. 輸入專題名稱，再按 Create pull request 按鈕：

Open a pull request

Create a new pull request by comparing changes across two branches. If you need to, you can also [compare across forks](#).

5. 畫面會出現您上傳的結果，這樣您就完成上傳資料至 Github 的工作了喔：
